PROFESSIONAL SUMMARY

Oracle Fusion Solution Architect with 2 years of expertise in designing and developing enterprise-grade cloud applications using Oracle VBCS, OIC, and Oracle JET. Specialized in Oracle Fusion HCM, HRMS, Finance, and Supply Chain implementations with proven ability to deliver scalable, high-performance solutions. Certified Oracle Cloud professional with strong full-stack development skills and experience in generative AI, automation, integration, and modern web technologies.

TECHNICAL EXPERTISE

Oracle Fusion Technologies: VBCS, OIC, Oracle JET, PCS, VBS, ORDS, ODA

Oracle Cloud Modules: HCM (Core HR, Absence, Talent), Finance (GL, AP, AR, FA), Supply Chain, PPM

Integration & APIs: REST APIs, Oracle Integration Cloud, Web Services, JSON/XML

Web Technologies: HTML5, CSS3, JavaScript, React.js Oracle JET Components, Responsive Design

Database & Backend: Oracle DB, SQL, PL/SQL, Python, Node.js

Cloud & Tools: Oracle Cloud Infrastructure, Google Cloud, Azure, Git, CI/CD, Agile/Scrum

PROFESSIONAL EXPERIENCE

Senior Associate Technical Consultant – Oracle Cloud

4i Apps Cloud Solutions Provider | Chennai, India | June 2024 – Present

- Architect and develop enterprise Oracle Fusion applications using VBCS with 100% adherence to Oracle Redwood Design System, delivering scalable solutions for HCM, Finance, and Supply Chain modules
- Built 5+ custom VBCS extensions including smart search pages, dynamic forms, inline table editing, and self-service portals with advanced filtering and REST API integration
- Designed and implemented Oracle Integration Cloud (OIC) flows connecting Fusion applications with third-party systems, achieving 99.9% uptime and processing daily transactions
- Optimized application performance by 35% through efficient JavaScript action chains, page module functions, and Oracle JET component configurations
- Led technical workshops training 4+ developers on VBCS best practices, Oracle JET patterns, and enterprise application architecture
- Collaborated with Oracle Fusion functional consultants to translate business requirements into technical specifications and production-ready code

Applied Data Science Intern

SmartInternz | Remote | May 2023 – July 2023

- Developed machine learning models achieving 92% accuracy for pose estimation and 87% for sentiment analysis using Python, TensorFlow, and scikit-learn
- Built automated ETL pipelines using Pandas and NumPy, reducing data processing time by 40% for analytics workflows

KEY ORACLE FUSION PROJECTS

CCC - Enterprise Service Automation (Oracle HCM)

- Architected comprehensive VBCS portal for 5,000+ employees with modules for business trip, budget management, document management, PPM and reimbursement.
- Implemented smart approvals (PCS), search with multi-filter capabilities, inline editing, and real-time notifications reducing HR ticket volume by 60%.

Nama Water Services - ERP Transformation (Oracle HCM, SCM, Finance)

- Developed custom application modules for Petty Cash, Request Approval, Secured Payment, Tender Strategy, House/Tanker Connection.
- Developed custom application connecting VBCS with external banking systems and payment gateways processing \$1M transactions (Bank Muscat).
- Implemented error handling framework with automated retry logic and email notifications ensuring zero transaction loss.

Omran OTL - Custom Workforce Integration

- Created real-time VBCS dashboard tracking time, labor with advanced analytics and reporting.
- Designed the back-end for the CRUD, REST API, ORDS, Packages, Procedures, Functions, Security and Approvals for the custom OTL Application.

EDUCATION

Bachelor of Technology in Computer Science & Engineering

Vellore Institute of Technology (VIT) | Chennai, India | GPA: 8.01/10.0 | 2020 – 2024

CERTIFICATIONS

- **Oracle Redwood Application 2025 Certified Developer** – Oracle Corporation (2025)
- **Oracle Cloud Infrastructure 2025 Application Integration Professional** – Oracle Corporation (2025)
- **Machine Learning Specialist – Advanced** – IBM (2024)
- **Deep Learning Essentials** – IBM (2022)

ACHIEVEMENTS & LEADERSHIP

- Delivered 5+ enterprise Oracle Fusion projects with 100% on-time deployment and zero critical production issues
- State & District Winner – National Children's Science Congress (NCSC)
